I love you
No matter what
I believe in you,
maybe sometimes more than
you believe in yourself
Just follow your heart
that's all that matters

17:54 JD

Reverse Transcription is always the first step towards the diagnosis of CORONA Virus!
Do you know why ??

DNA encodes RNA, this process called Transcription

Opposite of it is what we call Reverse Transcription.

The process of conversion of an RNA fragment into DNA in the presence of an enzyme called Reverse transcriptase is termed as Reverse Transcription
