

JIS College of Engineering

(An Autonomous institute)

Department of Computer Science & Engineering

UNIQUE

FROM THE HOD'S DESK

Warm Greetings and welcome to the Computer Science & Engineering Department in JIS College of Engineering. Computer Science & Engineering is one of the leading Departments in JISCE, providing high technology-oriented programs to meet today's needs of young minds, a department with all dedicated faculties and staffs to impart knowledge on various fields including recent trends in technologies helping students to take on any problem.

The curriculum is good enough for employment in various sectors. The persistent vision of CSE department is to divulge knowledge with high sense of integrity and commitment to the tasks, intended to promote the all -round development and well being of humanity as a whole.

Dr. Dharmpal Singh
HOD, Dept. of CSE.

Vision

The Computer Science and Engineering Department at JIS College of Engineering will be a leader in computing innovation through excellence in undergraduate and graduate education, active research programs and the dissemination of knowledge. The Department will leverage both the international and interdisciplinary nature of computing.

Mission

The Department's mission is to provide students and faculty with an open environment that encourage professional and personal growth. The academic programs mission is that to prepare students for flexible career paths and continuing advancement in computing. The students are motivated and encouraged to build a successful careers in the computing professions through flexible programs of study that can be adapted to support individual career goals.

MESSAGE FROM FACULTIES

Computer Science and Engineering is an essence of today's world. Being a faculty of Department of Computer Science and Engineering, I welcome to all my students, colleagues and staffs. We are the most vibrant department in the institution in terms of students, faculties, facilities, placements and research grants. Here, in the department, we are continuously making effort to impart cutting edge knowledge and technologies. I wish to all my students ,my department and my Institution a great future .

Mr. Amit Majumder (AP/CSE)

JIS College of engineering is a great place to learn and research. Computer Science & Engineering department provides different laboratory such as Network Lab, Operational Research Lab, Advanced Database Systems Lab, Computer Architecture Lab, Web Technology Lab and many more with high speed internet facility. The department takes initiative to organize different seminar and workshop for different computer field. The department also takes initiative to improve the quality of the students so that they can face the competition in the corporate world confidently. My best wishes to all the students of Computer Science and Engineering Department.

Mr. Apurba Paul (AP/CSE)

JIS College of Engineering, Kalyani is an autonomous institute. The faculty members of Computer Science & Engineering Department of JISCE are well-experienced, active, enthusiastic, energetic and friendly to their students. All the students are very much encouraged to make their career smooth and glorious. All faculty members are engaged for teaching the students as well as in their research work. Our department is motivated and helpful to bring success to the students. I wish all the members, stakeholders, students and faculties concerned with the CSE department, health, good luck and best wishes for the future.

Ms. Ira Nath (AP/CSE)

Computer Science and Engineering Department of JIS College of Engineering has given me many memories to cherish for, throughout my lifetime. This is the place where I honed my teaching skills, became interested in research, made some of my best friends and learned to take the level and quality of technical education higher, each passing day. The working atmosphere of this department is electric, where every faculty expertise in specific skill sets.

Ms Jhumpa Mistri (AP/CSE)

FROM EDITOR'S DESK

It is our immense pleasure to work on this edition, included in the words from our HOD/CSE Prof. Dharmpal Singh and senior faculties. It also highlights events, workshop, seminars, publications, achievement and many more. In this edition, we have tried to capture last few months excitement and activities. We have also included the achievement of the students and faculty members from the CSE department in curricular, co-curricular and Extra-curricular activities. I sincerely hope that this edition makes for an interesting read.

Mr. Sumanta Chatterjee (AP/CSE)

FACULTY PUBLICATIONS

Sl	Title of the paper	Author	Publication Details/Vol.No./ISSN No./Page No.
1.	Assessment of The Heart Disease Using Soft Computing Methodology	Dharmpal Singh, Souvik Pal, Sudipta Sahana, Ira Nath, S. Bhattacharyya	The 4th International Conference on Research in Intelligent and Computing in Engineering, Hanoi University of Industry , Vietnam, August 8-9, 2019 (Scopus)
2.	An Effort to Analysis the Causes of Rail Accident using the concept of statistical methods	Dharmpal Singh, Souvik Pal, Sudipta Sahana, Ira Nath, S. Bhattacharyya	The 4th International Conference on Research in Intelligent and Computing in Engineering, Hanoi University of Industry , Vietnam, August 8-9, 2019 (Scopus)
3.	Security and Privacy Challenges in Big Data	Dr. Dharmpal Singh, Ira Nath and Pawan Kumar Singh	Book chapter for the upcoming book, "Security, Privacy, and Forensics Issues in Big Data", DOI: 10.4018/978-1-5225-9742-1, EISBN13: 9781522597445 (accepted) (Scopus Indexed)
4.	Information Technology and Student Success	Dr. Dharmpal Singh, Ira Nath, Sonali Bhattacharyya	Book chapter, International, for the upcoming book, "Emerging IT Issues in Higher Education."
5.	Efficiency of Big Data Application in Smart City	Dr. Dharmpal Singh, Pranati Rakshit, Sudipta Sahana	Book chapter, International, book of <i>Big Data Analytics for Sustainable Computing</i>
6.	Application of IoT in Health care	Pranati Rakshit, Ira Nath, Dr. Souvik Pal	It will be published in BOOK TITLE: "Principles of Internet of Things (IoT) Ecosystems: Insight Paradigm", <i>Book chapter (Springer)</i> BOOK SERIES TITLE: Intelligent Systems Reference Library "Springer" PUBLISHERS: Springer INDEXING: ISI Web of Science, SCOPUS, DBLP and Springerlink. (accepted)
7.	A Design of IoT Based Agricultural System for Optimal Management	Dr. Dharmpal Singh, Dr. Souvik Pal, Sudipta Sahana	Analytic in IoT agriculture, Book chapter
8.	An Empirical study of Digital Marketing Strategies in E-Commerce Review and Prospect	Sumanata Chatterjee	Book of Digital Marketing Strategies and Models for Competitive Business
9.	Automatic Music	P. Mondal, Ira Nath,	International Conference on Research in

	Genre Detection using Artificial Neural Networks	N. Gupta, M. K. Jha, D. G. Ganguly.	Intelligent and Computing in Engineering (RICE-2019) [will be Published by Springer & Scopus Indexed]
10.	A New Accident Alert System Using Android App Development published in	Anindya Dey, Ira Nath, Ramaadyuti Battabyal, Bhakta Ballav Garai and Amit Mazumder	AICTE Sponsored 2 nd International Conference on Non Conventional Energy – Nanotechnology & Nanomaterials for energy and Environment (ICNNEE2019), 18 th October, 2019.
11.	Security and privacy issues in IoT, and its challenges and solutions	Dr. Bikramjit Sarkar	Accepted for the book “IoT Security And Privacy Paradigm”
12.	An Analytical Survey on the Health-Care Paradigm in IoT Ecosystem and Policy Implementation Protocols in India	Dr. Bikramjit Sarkar	4th International Conference on Research in Intelligent and Computing in Engineering (RICE 2019), Accepted (Springer) [Scopus indexed], August 08-09, 2019.
13.	A New Accident Alert System Using Android App Development	Anindya Dey, Ira Nath, Ramaadyuti Battabyal, Bhakta Ballav Garai and Amit Mazumder	Published in AICTE Sponsored 2 nd International Conference on Non Conventional Energy – Nanotechnology & Nanomaterials for energy and Environment (ICNNEE2019), 18 th October, 2019.
14.	NEHSC: A NEW EFFICIENT HEURISTIC FOR SYMMETRIC KEY CRYPTOGRAPHY	Ira Nath, Pranati Rakshit, Dharmpal Singh	Published in AICTE Sponsored 2 nd International Conference on Non Conventional Energy – Nanotechnology & Nanomaterials for energy and Environment (ICNNEE2019), 18 th October, 2019.
15.	FACE DETECTION USING SUPPORT VECTOR MACHINE WITH PCA	Pranati Rakshit, Sonali Bhattacharyya, Jhumpa Mistri and Ira Nath	Published in AICTE Sponsored 2 nd International Conference on Non Conventional Energy – Nanotechnology & Nanomaterials for energy and Environment (ICNNEE2019), 18 th October, 2019.
16.	Assessment of Annual Average Temperature by Soft Computing Model	Dharmpal Singh, Sudipta Sahana and Ira Nath,	Published in AICTE Sponsored 2 nd International Conference on Non Conventional Energy – Nanotechnology & Nanomaterials for energy and Environment (ICNNEE2019), 18 th October, 2019.
17.	Prediction of heart disease using SVM	Dr. Pranati Rakshit Debasree Mitra	I3SET2K19 (accepted)

	with feature selection		
18.	Prediction Of Diabetes Mellitus Using Different Machine Learning Techniques	Debasree Mitra, Dr. Pranati Rakshit , Ali Siraz Akhtar, Arghya Bhowmick, Himanshu Singh, Dibya Mondal, Khwaja Mohiuddin Ansari, Kaustubh Chakraborty	International Conference in I3SET2019/Dec 2019 (Elsevier SSRN)
19.	Prediction of Heart Disease Using Support Vector Machine With Feature Selection Method	Rahul Majumder, Dr. Pranati Rakshit , Debasree Mitra, Swatilekha Nag, Suchismita Gupta, Swarnava Gupta	International Conference in I3SET2019/Dec 2019 (Elsevier SSRN- Post Conference Communication)
20.	Identification and prediction of factors responsible for diabetes by machine learning approaches	Debasree Mitra, Arghya Bhowmick, Himanshu Singh, Dibya Mondal, Khwaja Mohiuddin Ansari, Kaustubh Chakraborty	International Conference in ICNNEE2019/Oct 2019 (Elsevier SSRN- Post Conference Communication)
21.	A Design of IoT-Based Agricultural System for Optimal Management.	Sahana S., Singh D., Pal S., Sarddar D.	In: Pattnaik P., Kumar R., Pal S., Panda S. (eds) IoT and Analytics for Agriculture. SEMINAR/WORKSHOP/ TRAINING/EVENTS ORGANIZED**REPORT OF TRAINING PROGRAM ON DATA ANALYTICS**

A Continuous Training Program was organized by Dept. Of CSE on Data Analytics. The Program was held on 4 Consecutive Saturdays (31st August , 7th September , 14th September, 21st September)in the 1st half only .

The Resource Persons were Mr. Santanu Mukherjee and Mr. Somesh Sarkar , both from Cognizant Kolkata and both are highend working Professional on the domain of Data Analytics in CTS for more than 15 and 10 yrs respectively.

On day 1, Dean of Students affair P.K. Bardhan Sir was available and felicitated the Resource Persons and on the last Day 21st September Pranati Rakshit madam was present and felicitated the Guest of Honour from our end.

Tell us about Your Motivation regarding SIH2019	<p>We were always curious about finding real life problems and solving them. Smart India hackathon is a great platform for finding such problems. We were trying to participate in SIH from last 2 years. We got selected in our 3rd and last attempt.</p> <p>We got our motivation from our mentors and college SPOC ,they told us about this platform and helped us to find a suitable problem statement to work on.</p>		

Share Your Experience (200 words)	It was an amazing experience because we were trying to find the solution of a real life problem under the guidance of industry peoples. The grand finale was a mesmerizing event. The planning and the extra activities we had at our nodal center gave us a wonderful experience. From the complete journey of SIH 2018 we learnt so many new things which were the part of Digital India. And its really a proud feeling to do something for our country. Thanks to SIH 2019.
Most Memorable incident during SIH2017	<ol style="list-style-type: none"> 1. One of our memorable moment of SIH2019 is the evening before the grand finale at our nodal center. Our whole team with our mentors were discussing our plan for tomorrow. 2. The second was the midnight energy drinks where we enjoyed a lot by making jokes about the drinks. 3. And also the speech by the nodal center head which gave us goosebumps by rising the DeshBhakt in us.
Achievements (100 words)	The biggest achievement was getting selected for the grand finale. We didn't won the finale but we won a lot of experience from the journey. In just two today we learnt what actually the country needs from us and how we can make other people happy from our innovation.

RECENT TRENDS IN IT INDUSTRY

By CSI Student Chapter
Department of CSE
JIS College of Engineering
(A Report)
(14th September, 2019)

On 14th September, 2019, CSI Student Chapter yet again held a workshop on a very demanding topic, Recent Trends in IT Industry at B.C. Roy Auditorium at JIS College of Engineering. Guest speakers from Alien Brains Educations basically held this Event. Praveen Behati, Shweta Shaw and Riten Debnath were the guest speakers who interacted very well with the students and helped them to show them the right approach towards the IT industry.

10:00 am to 10:15 am:

All the Dignitaries, Dr Partha Sarkar, the Vice Principal of JIS College of Engineering, Dr Sabyasachi Sen, Dean R and D, P.K. Bardhan, Dean and Student affairs, Dr Dharam Pal Singh, the Head of the Department of Computer Science and Engineering and last but not the least, the guest Speakers were called on the stage to take their places. The dignitaries were

called on the Dias one by one to come and share a few words with the students. Each of their motivational talks really inspired the students and they became more enthusiastic for the workshop.

10:15 am to 11:30 am:

(1st Session)

The session began on a good note with Praveen Behati, one of the chief guests from Alien Brains. His friendly gesture created an easy approachable between him and the students. He poured all sorts of useful information regarding how the 4 years of student life of a computer science engineering must spend, how to make oneself fit for the industry. He shared his own experience of his 4 years of engineering and how he groomed himself.

11:45 am to 13:05pm:

(2nd Session)

The 2nd session resumed after 15 minutes of a tea break. Here, all the three guest speakers shared the stage as called for. A question answer session was held, where the professionals answered each and every question which arose in the mind of the students. Many new career suggestions were given. Later, they covered a very trending topic of the industry, i.e., regarding Machine Learning and React JS. This workshop helped the students a lot to open their eyes to where they are standing and how much more improvements or effort much be needed to fit into the industry well.

13:05 pm to 13:30 pm:

The event was finally drawn to a conclusion with the Vote of Thanks by the Student Branch Counsellor of CSI Student Chapter of JIS College of Engineering, Mr. Sudipta Sahana. A token of love in the form of mementoes were given to the guest speakers and the event was called off by announcing that E -Certificates will be provided to all who attended the workshop.

MENTORSHIP PROGRAMME

A Mentor is considered to be an individual who is experienced and knowledgeable and therefore he or she assumes the role of a Guide, Advisor or Tutor to a guide an individual having a lesser experience and knowledge. The individual with less experience and knowledge is known as the Mentee.

Mentorships conducted to counsel and guide the students who act as mentee. Every faculty member acts as the mentor of around 10-12 students from each year in CSE department. Approximately 40 - 48 students are assigned as mentee under the supervision of one individual mentor. Students meet with their assigned mentors in regular interval, though, the student can meet with his/her mentor any time regarding any issue.

Learning from mentors assists mentees to gain recognition and acknowledgement for their work and performance from their co-workers. It further provides them with the opportunity to grow further in their careers.

To explore the mentor–mentee relationship with a focus on determining the characteristics of effective mentors and mentees and understanding the factors influencing successful mentoring relationships.

We from department of CSE discussed with our faculty members and identified a number of themes, including the characteristics of effective mentors and mentees, actions of effective mentors, characteristics of successful mentoring relationships, and tactics for successful mentoring relationships. Successful mentoring relationships were characterized by **reciprocity, mutual respect, clear expectations, personal connection, and shared values**. Failed mentoring relationships were characterized by poor communication, lack of commitment, personality differences, perceived (or real) competition, conflicts of interest, and the mentor's lack of experience.

We from department of CSE have introduced Mentorship officially to students after we got the Autonomous Status in 2011. Beforehand the class-incharges used to attend the students and discussed their several issues. The students also discussed their problems with HOD at the time of "HOD Meet" Hour. We from our department have generated an online Googleform and students are continuously updating their information.

Generally, we discuss mentee's expectations of one another, we identify an article or book that a mentor feel would be beneficial for the mentee to read. We ask the mentee about the professional development activities he/she has participated in as a student. We ask the mentee to create a vision for where he/she wants to be in five, ten and/or fifteen years.

We encourage the mentee to get involved in an appropriate professional organization, we share resources. We also consider and collect any resources that might be useful to the mentee.

Mentoring Outcome:

- Increasing the engagement of students through interactions with a mentor,
- Assisting students in developing a mentoring relationship for career development in an effort to increase knowledge, skills, and competencies that may be needed for future job duties or future career advancement.
- Provide an avenue to access available resources and information to support lateral or upward mobility.
- Student development and engagement - engaging students through professional and personal development;
- Aligns with Talent Management Initiative

Now officially we respond their problem in documented form and our Honorable HOD and Register Madam also take personally take care of mentorship. Learning from mentors can assist in personal and career development of mentees in several ways.

Mentees participated in IME 2019, ECO Park

20th Anniversary Celebration

Conversation with the guardian of the mentees during PTM

CSI - WEST BENGAL STATE STUDENT CONVENTION 2K19

(Theme – Machine Intelligence and Internet of Things)

Organized by
CSI STUDENT CHAPTER - JIS COLLEGE OF ENGINEERINGJIS COLLEGE OF ENGINEERING, KALYANI
14th November, 2019

(A Report)

It was a moment of immense pleasure and honour when JIS College of Engineering got the humongous opportunity to conduct the CSI State Convention. On 14th of November, 2019, CSI – WEST BENGAL STATE STUDENT CONVENTION 2K19 was held successfully, with the theme of Machine Learning and Internet of Things, organised by CSI – STUDENT CHAPTER of JIS College of Engineering, Kalyani.

10:10 am onwards, after the registration from 9:00 am to 10:10 am, the convention was commenced grandly at B.C. Roy Auditorium. All our Honourable guests were cordially welcomed in true Indian essence. The convention started with the venerated Lamp Lighting ceremony; followed by calling up the dignitaries on the Dias and felicitating them. A welcome song set up the atmosphere for beginning the convention with positivity.

Soon after the rituals, Dr Malay R. Dave, Principal of JIS College of Engineering was called on the Dias for the welcome address. After his motivating words, Honourable Prof. (Dr) A.K. NAYAK, President of CSI delivered a priceless inaugural speech. Then, Mr. Gautam Hajra, Chairman, CSI Kolkata Chapter was called on the Dias for addressing. Mr. MD Shams Raza, Regional Vice President of CSI, Region-II followed after that. Dr Somnath Mukhopadhyay, Regional Student Coordinator, Region II, CSI, replaced the position on the Dias for addressing. Honourable Chief Guest Prof. (Dr) Saikat Maitra, VC of MAKAUT addressed the gathering and highlighted about the bridge between industry and academia. Finally, the session was concluded with the Vote of Thanks by Dr Partha Sarkar, Vice Principal of JIS

College of Engineering. Students have participated from various institutions across the state like Techno International Batanagar, Narula Institute of Technology, Guru Nanak Institute of Technology, JIS School of Polytechnic, Adamas University and many more. After a short tea break, the convention resumed with the keynote address by Prof. (Dr) J.K. Mandal, Department of CSE, University of Kalyani, followed by Mr. Atul Prakash Agarwal, Managing Director, APT Software. After that, Mr. Snehasis Banerjee, Scientist in TCS Research gave a beneficial speech from the student's point of view on Career/ Job opportunities. The session was concluded by a CSE Alumni, who talked about his own experiences, lightening the path of the student's upcoming unseen future. The convention returned right back after the lunch break with the much awaited three events, held parallelly. These events were completely set up for student's activity purposes.

The Research Paper Presentation, which was held at B.C. Roy Auditorium; Coding Competition, held in computer centre and Technical Poster Presentation at CMS auditorium. The three exuberant activities went on at a time with equal zest and zeal.

After the completion of the three events, all the students were called at the B.C. Roy Auditorium, where the convention was held, for the announcement of results of the three events. The first, second and third prizes for each event were acknowledged along with a cash prize of Rupees 1000/-, 500/- and 300/- respectively.

The first position for Research Paper Presentation was occupied by Dwaipayan Saha, Jesmin Roy, Indrani Mukherjee and Sumanta Chatterjee on the paper entitled "Microcontroller Based Accident Prevention and Safety System for Mountain Road" from JIS College of Engineering. The second position for Research Paper Presentation went to Adnan Ahmad, Astha Singh, Anjali Sharma, Sumanta Chatterjee and Apurba Paul on the paper entitled "Microcontroller Based Anti-Sleep Alarm System" from JIS College of Engineering.

The third position for Research Paper Presentation was for Subhayan Sarkar, Srirup Lahiri, Anusua Biswas, Amrita Das, Subhrajyoti Bhowmick, Sudipta Sahana, Dharmpal Singh and Ira Nath on the paper entitled "Real-Time Local Train Tracking System through HaarCascade Classifier and OCR Model" from JIS College of Engineering.

In the coding competition, the first prize was bagged by Suraj Kumar with a score of 86.36 from Techno International Batanagar. The second prize won by Samar Anand with a score of 77.27 from JIS College of Engineering. And the third prize went to Antara Agarwal with a score of 50 from Techno International Batanagar.

For the last event, Technical Poster Presentation, the 1st position was allotted to Ishon Mollick, Piyali Banerjee, Purba Dutta and Anirzeet Pramanik on the title “Ice Cream Mix Fortified with Vegetable Waste Source” from Guru Nanak Institute of Technology, 2nd position to Swarup Sonar and Anindita Mukherjee on the title “Human Intelligence Inbuilt Robot” from JIS College of Engineering and 3rd position to Sanjay Biswas, Rohit Chatterjee, Pratim Chatterjee on the title “Smart Dustbin” from Guru Nanak Institute of Technology.

After the declaration of results, Mr. Sudipta Sahana, the Student Branch Counsellor of CSI Student Chapter, JIS College of Engineering, shared his experiences with this event and added how the CSI Student Chapter worked hard for the event to be successful.

The eventful day was drawn to a conclusion by the Dr. Dharmpal Singh, the Head of the department of Computer Science and Engineering. The Long day ended by distributing the certificates of participation.

REPORT OF SEMINAR ON THE INTERNET OF THINGS

A Seminar on Internet of Things (IoT) has been organized by the dept. of Computer Science and Engineering, JIS College of Engineering, on the Friday, April 26, 2019 at the college premises in collaboration with the Electro Inventor. This seminar was aimed to cover the technological aspect of IoT in different areas of application. The department of Computer Science & Engineering has organized the seminar under the good guidance of Dr. Dharmpal Singh, Head, Department of Computer Science and Engineering.

Dr. Bikramjit Sarkar was the convener of the aforesaid event. All the remaining faculty of the department were in the organizing committee with their assigned sub duty.

A total number of 44 students from the 1st Year, 2nd Year, 3rd Year and 4th Year of the department of computer Science and Engineering, JIS College of Engineering participated in the aforesaid seminar with their great zeal and zest.

REPORT OF SEMINAR ON THE WORKSHOP ON LINUX

A Workshop on **LINUX** has been organized by the Department of Computer Science and Engineering, JIS College of Engineering, From 29th January to 1st February and 13th, 15th February, 2019 at the college premises in collaboration with TEC4TRIC. This workshop was aimed to cover from the very basic of Linux to advanced level and to grow their interest in Linux. The Department of Computer Science & Engineering has organized the seminar under the good guidance of Dr. Dharmpal Singh, Head, Department of Computer Science and Engineering.

Mr. Apurba Paul was the convener of the aforesaid event. All the remaining faculty of the department were in the organizing committee with their assigned sub duty.

A total number of 45 students from the 2nd Year of department of computer Science and Engineering participated in the aforesaid seminar with their great zeal and zest. We've taken an assessment, where most of them has performed well.

REPORT OF SEMINAR ON ANGULAR JS & NODE JS

A Seminar on Angular JS & Node JS has been organized by the dept. of Computer Science and Engineering, JIS College of Engineering, on the Friday, May 10, 2019 at the college premises in collaboration with the OgmaTech Lab. This seminar was aimed to cover the technological aspect of Angular JS & Node JS in different areas of application. The department of Computer Science & Engineering has organized the seminar under the good guidance of Dr. Dharmpal Singh, Head, Department of Computer Science and Engineering.

Dr. Bikramjit Sarkar was the convener of the aforesaid event. All the remaining faculty of the department were in the organizing committee with their assigned sub duty.

A total number of 42 students from the 2nd Year, 3rd Year and 4th Year of the department of computer Science and Engineering, JIS College of Engineering participated in the aforesaid seminar with their great zeal and zest.

Student's Speak

The Computer Science and Engineering Department of JIS COLLEGE OF ENGINEERING is producing quality graduates trained in latest tools and technologies of this era and striving to make India a world leader in software and hardware products and services. Computers are incredibly fast, accurate and stupid.....humans are incredibly slow, inaccurate and brilliant together they are powerful combinations beyond imagination....The interface provided by the department is truly an amazing experience for the students of the institution.

Shruti Kulshrestha (4th Year CSE)

Department of Computer Science & Engineering of JIS College of Engineering is very nice. All the faculty members of this department are highly qualified and co-operative. They provide tremendous support to students. They keep update students with seminars, conference presentations, tech fest and many more from time to time. Innovative projects are also prepared with their support in each semester which build the developing skills among students.

Rup Saha (4th Year CSE)

Alumni Speaks:

Thank you CSE Dept., JISCE, to help me open my eyes and see the professional world. I take great pride to say, that whatever I am today, CSE Dept of JISCE has played a major role to enrich my technical skills, and gave me the courage to explore different dimensions into this field. I give all credit to the erudite faculty for the professional enrichment of so many students like me.

Krishnayan Gupta (Software Developer, Amazon India)

I'm Argha, currently studying M.Tech in Computer Engg and application in Rajabazar science college. I would like to Share my thoughts about this wonderful dept where i completed my B.Tech. My department & my teachers/mentors have been very helpful and have always provided me support through all means throughout these 4 years . Each faculty present in this department have immense knowledge and experience and have always guided us towards the right direction.

Argha Nandi (M.Tech Student, Calcutta University)

Computer Science & Engineering is one of the major departments of technology since the establishment of this institution. It comprises adequate members with exceptional skills and expertise in the allied areas of technologies. Our faculties are very cooperative and obliging, it's our honor to get a prospect to be trained by them. It has well developed lab with all the requisite equipment. I am really very propitious and delighted to state that I am a part of this department and the Organization.

Komal Gupta (Software Developer,TCS)
