

International
Conference
On
Digital Transformations

JIS College of Engineering - JISCE, Kalyani, West Bengal is the flagship institute of JIS Group which is Eastern India's largest educational conglomerate. This institute is the FIRST institute in India that has disrupted the higher education by introducing digital transformation through Flipped Learning since 2016.

We have been endorsed as the leaders for digital education in India by MHRD, NPIU, AICTE, the World Bank Group, UNESCO, Microsoft, MEF University – Istanbul & Maulana Abul Kalam Azad University of Technology, Kolkata. Last April, we successfully organised an *International Conference on Digital Pedagogies* at New Delhi. We had both speakers & participants from across the World.

As a key takeaway of the conference, MHRD announced funding of 100 select institutions from TEQIP 2 & 3 for digital transformation based on the JISCE initiative of Flipped Learning. Last November, a select team of academicians from across India was sponsored by NPIU for training in Digital Transformations here at JISCE. Topics of the three days' workshop included Digital Pedagogical Approaches, smart board usage, digital Learning Management Systems, Myths about Digital Pedagogies, Future Learning Spaces for Digital Pedagogies & Role of Built Environment including Biophilic Classrooms in Digital Transformations.

Now that almost a year has passed and remembering the glowing faces of participants rearing to initiate the digital transformations as they left the last venue of our last conference, we have decided to go in for its sequel called *International Conference on Digital Transformations*. We are sure the participants will bring back huge numbers of success stories of their tryst with digital transformations to share.

We look forward to have you with us, once again, same time, same channel at New Delhi on April 1 to 3, 2020.

The Verticals:

1. Digital Transformations & Impact on Organisational Transformations
2. Digital Transformations & Impact on Teaching & Learning
3. Digital Transformations & Impact on Built Environment
4. Digital Transformations & Impact on Employability with reference to Industry 4.0
