**LATE SARDAR JODH SINGH**

## **Founder Chairman's Message**

*“Education is simply the soul of the society as it's passes from one generation to another” ..... G. K. Chesterson*

I always experienced a yearning to acknowledge my responsibilities and reciprocate by contributing to the growth and development of our society. Years ago when I visited my son's school, I perceived that the best way to advance society is by fostering education and it was at that moment that the dream and vision of JIS Group Educational Initiatives was conceived. Vision looks inward and becomes duty. Vision looks outward and becomes aspiration. Vision looks upward and becomes faith. | Now, when this vision of duty, aspiration and faith has become a reality, it is a proud moment for me and my team to see thousands of students pursuing higher education in JIS Group of Colleges and equipping themselves to become industry ready professionals for successful careers. In this process the Group intends to unite all dimensions of Education from Undergraduate to Post Graduate Programmes in Engineering and Technology, Computer Applications, Dental Science, Pharmacy, Hospitality, diverse streams of Management and so on under the same umbrella in order to comprehensively and collectively optimize the reach of Educational Initiatives in every strata and corner of society towards a better future.

Our educational Initiatives believes that creating an academic foundation for social, cultural, scientific, economic and technological development in our Nation can mature into Global Interface by giving way to education exchange in the international territory as well. Therefore, our focus is to achieve unparalleled excellence that will bring development to our society and mankind by optimizing their potential, thereby establishing the observation of the renowned Journalist Sydney J. Harris on the role the purpose of education which is to “turn mirrors into windows”.

***Late Sardar Jodh Singh***

Founder Chairman, JIS Group

## **JIS Group Director's Message**

It is very much safe to say that the world today we are experiencing is one of a kind. It has not been experienced by our generation not the one before us nor the one after us. But we are not in this alone, we are all together and together we will come out of it strong and determined. We have to understand that this world will never be the same again and I like to believe that we are stepping into The New World. It has taught us that we cannot abuse nature and just carry on our lives. We have to learn to respect nature and learn to co-exist with it rather than destroying it.

## **Principal's Message**

JIS College of Engineering (JISCE), an institution under JIS Foundation was established in 2000 by inspiration and motivation of Late Sardar Jodh Singh (Babujee) and was became first Private Autonomous Institute in the state of West Bengal in the year 2011. Institute is committed to emerge and disseminate world class unique learning experience through project-based learning and innovation across sphere. This premier technical institution has nurtured 10,000+ engineers and continuously evolved with the facilities like best infrastructure, state of art Laboratories upgraded with instruments and utility software packages, enriched library, central computing and net station, canteen, play field, gymnasium, medical facilities, and hostel, etc.

As a mission of transforming education, in 2017 JISCE made a quantum jump in the pedagogical initiative through Flipped learning-first fully Flipped Institute in India as endorsed by AICTE, MHRD, Govt. of India. There has been a radical change in overall infrastructure through 24 Flipped classrooms, two number digital studios and Flipped learning discussion room. The uniqueness of a Flipped class is low end cognitive skills like remembering & understanding are done at home, while its application, critical evaluation of the concept and creating new ideas are done in a vibrant classroom environment. The teacher's role is elevated to that of the moderator of a brainstorming session. Each of these rooms has wired and wi-fi connectivity, Audio Visual presentation through LCD projector and complimenting Sound System. Our in-house publication on Flip Learning was launched by Dr Anil Sahasrabudhe, Chairman, AICTE. Being an Autonomous Institute, we provide curriculum that reflects the latest trends of industrial revolution through Industry 4.0. All these efforts have been recognized through NIRF ranking in two successive years 2020 (Rank Band 250

to 300) and 2021 (Rank Band 200 to 250). JISCE has a vibrant Institutional Innovation Council (5 Star ranked) and received a rank in the band 26 to 50 in the ARIIA 2020 as approved by the MHRD innovation Cell with its peripheries extended over a variety of activities such as Idea Competition, Technical Symposium (JISTech), IPR awareness, Start-up activities, Networking with Industry and Institute of repute. JISCE has made its mark nationally and internationally by developing learners with passion and commitment to work in a global environment, capable of creativity, innovation, and entrepreneurship for nation building through state-of-the-art teaching, learning and mentoring experience. We provide ample opportunities interactions with international experts and global leaders in a variety of curricular, co and extra- curricular activities for enrichment of learning experience. Institute is offering course curriculum with industry orientation and unique specializations. Institute is having Ph. D holder and experienced faculties with extensive academic research experience and innovative methodologies of knowledge dissemination. Faculties of various department is contributing through R& D projects under different state level and international level funding Agencies. Faculties are also providing traditional consultancy in various sectors and firms. To make our engineers “INDUSTRY READY” according to the benchmark of Industry 4.0, Institute has established Industry institute interaction programme under which 20+ faculty 10+ industries are collaborated to provide the industrial platform to the students and faculties. Students are allowed to carry on internship in their final year. The Institute has profound networking initiatives with a number of Industries and academics Institution of repute; same is endorsed by the signing of MoUs. Some of the notable Industrial MoU includes MoU with NHAI, PCRA, CGCRI, University of Alamo, MIPT-Russia, RNU-Russia, AIT-Bangkok through which industry experts are giving their guidance and expertise for events like Project expo, expert talks, seminars, workshops, industry tour etc. These programs have helped to achieve Academia- industry collaboration and Partnership for Innovation.

As a principal of this college, I ensure that JISCE is committed to work on the mission to produce globally employable innovative engineers with core values to cultivate a field with new ideas & research leading to emergence of creators, innovators, leaders & entrepreneurs.

## About the Institute

**JIS** College of Engineering, an institution of academic excellence was established in the year 2000 with a cherished desire to serve the cause of humanity through education. Since its modest beginning on September 1st, 2000 JISCE has crossed twenty-one years of its journey so far and has gone from strength to strength until now. Eight undergraduate programmes are running namely Civil Engineering, Mechanical Engineering & Electrical Engineering followed by Biomedical Engineering, Electronics & Communication Engineering, Computer Science Engineering, Information Technology and Agricultural Engineering. We have four Post Graduate Programmes in Engineering, one in Business Administration & one in Computer Application. The JIS College of Engineering has blossomed into six value Added Centres such as British Council Centre for Communication Skills, NPTEL Centre for Value Addition, TATA Technologies Centre, CII Centre for Innovations and a Centre of Excellence, created by a joint partnership with Universities of the Russian Federation. As a mission of transforming education, in 2017 JISCE made a quantum jump in the pedagogical initiative through Flipped learning-first fully Flipped Institute in India as endorsed by AICTE, MHRD, Govt. of India. There has been a radical change in overall infrastructure through 24 Flipped classrooms, two number digital studios and Flipped learning discussion room.
